MATT MARCHA

Full name: Matthias Martin-Chave

Full Stack Web Developer

022 304 3089
matt@marcha.pro
Wānaka, Otago

Freshly imported from France, I have a Working Holiday Visa until September 2023 and plan then to stay and settle in Aotearoa NZ.
I am looking for a long-term job with an Accredited Employer in Wellington or the South Island.

Work history

1988
I born. Wow. Life is awesome

2016

Web Developer & Project Manager
Théra, Tassin-la-Demi-Lune, France

Small digital agency, creating mostly corporate websites and software for events management.

Working in a very small dev team (just my manager and me), I have quickly been **involved on all steps of the products development lifecycle**, then managed, developed, designed projects on my own.

I also designed some generic tools for internal use, like a **Wordpress MVC plugin boilerplate**, or a **git-based deployment process**.

Back&front development and way more : emailing, server management, deployment, helping-Françoise-who-do-not-remember-how-to-print-a-document... Once I've even been a cameraman !

2019

Freelance Web Developer
Self-employed, Lyon&Grenoble, France

Creating websites and applications for small companies or organizations, specialized in **eco-design** to produce low-carbon solutions.

Product owner, project manager, business analyst, developer... I got all the caps. Hired & collaborated with other freelancers for graphism, content...

Worked with **various CMS and frameworks**.

I also worked as a fruit picker, a theater receptionist, a musician, a music teacher in middle school, a web assessor, a section manager in an organic foodshop in France and as function staff, kitchen hand, service support and longlife assistant in Aotearoa. That's a lot of random useful stuff learnt on the way.

Technical skills

PHP Functional and OOP. Familiar with MVC pattern & Symfony framework

I am loving it. So much. Really. Especially when it comes to alignment **CSS**

HTML <aside> Keeping it clean and well-organised </aside>

Vanilla & jQuery. A few AJAX devs and one Node.js experience **JavaScript**

CMS Wordpress, Prestashop, Drupal, and some more exotic

Management & queries **MySQL/MariaDB**

Linux, Git, Composer
$>Shell-confident penguin lover_

Project management
Agile workflow, Budgetting, Document drafting, even the client/dev translation

Design & Architecture
Websites, applications, databases... Just give me new stuff to think about !

Python Software and web development for homemade weird experiments. No commercial experience

Machine/Deep learning
Graduate level. Learnt about Pandas, NumPy, Jupyter, Matpoltlib, Maths & Stats...

Personal skills

Hard worker
I have **high standards** and am always willing to do the **extra mile** to get the best results

Fast-learning
More than a **willingness to learn**, discovering and learning new things is a need.

Problem solving
With an eye for details and very **resourceful**, I always find a solution (and often the good one).

Self-management
I am very **organised** and can be independent with my tasks and my hours.

Communication
My previous experiences taught me a lot of positive-communication skills very useful while **team working**.

Qualifications

IT engineering expert
Sciences-U, Lyon, France

Community experience

2019
Citizen
French Climate Citizen Convention (Convention Citoyenne pour le Climat)
Paris, France

I was randomly drawn with 150 other persons from the french population, and we worked together on a new French Climate legislation.

2020
Team manager
Les 150, Paris, France

Volunteer position in the organization created to support the 150 citizen from French Climate Citizen Convention while their work was reviewed by the Government

Values

Values are very important for me. I need them to be respected to feel good at work.

Truth
There is no good lie. I value truth at all time.

Honesty
Do the right things and act for the greater good. Always.

Ethic & fair
Because any unfair system is defective.

Respect
It's going with a lot of empathy.

Interests

Environment
Especially how to preserve it

Nature
Better than TV

Mountain
Quite a playground

Hiking

Rock climbing

Swimming

Playing music

Video games

Chilling
